## WASH OUT TRAYS

- Made from durable ABS plastic
- Keeps your work area clean of concrete and wash-out water
- Oil resistant to catch oil drips and leaks
- Ships easily under hoses

## CHEMICALS/ADD MIXTURES

### CONCRETE REMOVER

- Removes hardened concrete, mortar build-up, splatter and lime scale
- Non-corrosive and non-hazardous, safe for the environment
- Safe on paint, glass, metal and plastic surfaces
- Cost effective, dilutes up to 8:1 in water
- Biodegradable
- No harmful solvents
- Comes in 5 gallon pails and 55 gallon drums
- VOC compliant
- Larger quantities available - please inquire

## CONCRETE PUMP PRIMER

### CRETE-LUBE 3

- 100% non-toxic concrete pump lubricant and primer
- Made from environmentally safe polymers, 100% environmentally safe
- Compatible with all concrete mixes and concrete pumps
- Comes in boxes of 50 packets or can be purchased in bulk
- Reduces wear and tear on your pump
- Increases ease and range of pumpability
- Decreases horsepower required
- Reduces friction and line pressure
- Thickening/lubricating agent helps pump harsh mixes and flowable fill
- Minimizes slump and air loss through pump lines and reduces de-watering

# SURGE CHAMBERS

PART NUMBER	DESCRIPTION
TEE40HDSURGEC	4" TEE HD ENDS, 4' STAND PIPE, 4" HD CAP (CLAMPS NOT INCLUDED)

Surge chambers neutralize sudden changes in concrete line pressure.

**BENEFITS:**

- Reduces hose whip
- Relieves movement in hose
- Extends life of hose by reducing external abrasion
- Keeps volume / pressure more consistent
- Steadies stress on the entire system especially on longer distance pours exceeding 100ft.

**We recommend the 4" surge chamber system even when running smaller line hoses because the smaller diameter chamber does not have the same pressure equalizing effect.**

## ACCESSORIES

### HOPPER VIBRATORS - OLI

PART NUMBER	DESCRIPTION
-------------	-------------

MVE-200DC	MVE 200 DC-12 Vibrator
-----------	------------------------

The range of MVE-type External Electric Vibrators is the result of more than forty years of experience in vibrating technology for the building industry as well as for other industrial applications worldwide. OLI® Rotary Vibrators afford a guarantee of long term durability, reflecting the care taken over selection of components (well sized SKF bearings) and the high level of precision adopted in manufacture, whilst maintenance is minimal and simple in the extreme.
